Editorial Review

Review

"The best, most insightful work I have ever read about the nature of authority, politics, and social structure in any communist country. . . . [It] builds a coherent theory about the nature of communism that will be widely influential in comparative studies for a long time."--Daniel Chirot, "Journal of Asian Studies"

From the Inside Flap

"Here is a book that smashes and rebuilds. It smashes widely held ideas about communist bureaucracy, charisma, the convergence of industrial societies. . . . It rebuilds our understanding of contemporary China—and of communist regimes in general—by showing how overlapping instrumental and personal ties, embedded in ideology and party organization, have reshaped Chinese industrial enterprises. By placing Chinese experience firmly and lucidly in comparative perspective, Walder helps us rethink non-communist enterprise as well."—Charles Tilly, New School for Social Research
