Environmental Science: Working with the Earth (with Environmental ScienceNOW™, InfoTrac 1-Semester Printed Access Card) (Available Titles CengageNOW) By G. Tyler Miller

ENVIRONMENTAL SCIENCE, 11th Edition, boasts an unparalleled coverage of sustainability, basic science, and bias-free comparisons, within a flexible chapter organization and supported by the strongest media tools and illustration program available. New media to this edition includes: "How Would You Vote?" found at <http://biology.brookscole.com/miller11>. This is an application of 68 provocative environmental issues covered in the text. Students investigate the issues in a structured manner, and then cast their votes on the Web where the results are tallied; Environmental ScienceNow, a learning tool that helps students assess their study needs through pretests, post-test, personalized learning plans and "How Do I Prepare," which aides students in basic math, chemistry and graphing review; and InfoTrac College Edition, a library of full text articles; PowerLecture for Miller's Environmental Science, 11th Edition. This one-stop PowerPoint Tool contains robust, preloaded PowerPoint lecture images organized by every chapter. PowerLecture contains: animations that bring key topics and concepts to life; a slide-sorting view for each chapter that lets you select, copy and paste slides into your PowerPoint lecture; the ability to select a piece of a figure and enlarge it; labels in text boxes that you can edit, remove, or present one label at a time; quick access to animations and videos--if a PowerPoint slide contains a green button, just click on it to show a related animation; Instructor's Manual and associated chapter outlines; and Test Bank--a complete electronic file of test items.

Editorial Review

Review

"Miller has written and rewritten the standard to which all other environmental science texts are compared."

"Tyler Miller's books.... rank among the best available worldwide. Whenever a new edition comes out, I grab it forthwith, whereupon I become yet more amazed that he can maintain such a hyper-high standard of work. In fact, I have just one basic reaction to Miller: right on, write on!"

About the Author

G. Tyler Miller has written 62 textbooks for introductory courses in environmental science, basic ecology, energy, and environmental chemistry. Since 1975, Miller's books have been the most widely used textbooks for environmental science in the United States and throughout the world. They have been used by almost three million students and have been translated into eight languages. Miller has a professional background in chemistry, physics, and ecology. He has a PhD from the University of Virginia and has received two honorary doctoral degrees for his contributions to environmental education. He taught college for 20 years, developed one of the nation's first environmental studies programs, and developed an innovative interdisciplinary undergraduate science program before deciding to write environmental science textbooks full time in 1975. Currently, he is the president of Earth Education and Research, which is devoted to improving environmental education.

Users Review

From reader reviews:

Eric Hough:

Book is to be different for each and every grade. Book for children until eventually adult are different content. To be sure that book is very important usually.
