### **Editorial Review**

#### **Review**

"Librarians who are looking for information to improve their library programs need look no further than Judy Freeman's book....In a straightforward, concise manner Freeman provides an excellent introduction to using all of these techniques. She tells media specialists how to prepare, practice, and perform a successful storytelling event....Her extensive diverse bibliographies provide additional guidance....Take the plunge and try something different at your library; using this book will guarantee librarians are prepared and supported in their efforts. Recommended." - **Library Media Connection**

"We all agree on the importance of story in the lives of children, but many of us stop at reading aloud. Don't. Freeman's advice and ready-to-use scripts, tales, chants, songs, accompanied by notes and tips, offer enough support, inspiration, and encouragement to get the most timid among us on our feet, sharing stories." -

#### **Curriculum Connections**

"What began as a handbook to accompany a series of storytelling workshops has become a compilation of tried-and-true stories, ideas, and activities for librarians working with children....Even librarians who have Freeman's earlier books will want this one. While new librarians will find the confidence to begin telling stories, those who are more experienced will be able to polish their skills, expand their repertoires, and incorporate reader's theater and creative drama into their programs." - **School Library Journal**

"Judy Freeman has more ideas for using children's literature than almost anyone we know. In this volume, she packs songs, readers theater, great-book lists, best professional books, good web sites, and more to attract librarian and teacher to make reading fun, exciting, creative, and beneficial to the literacy program of the school....Bottom line: Highly recommended for teachers and teacher-librarians who are on a quest to move beyond just deadly skills." - **Teacher Librarian**

"The ideas presented are very useful and based on materials written, presented, and taught by Judy Freeman. An author/title index enables the user to quickly find a section on the author or title they wish to present on, while the work itself enables easy browsing if one is unsure of what to present next." - **ARBA**
