The Cervical Spine By Edward C Benzel MD

The Cervical Spine is the most comprehensive, current, and authoritative reference on the cervical spine. Prepared by internationally recognized members of The Cervical Spine Research Society Editorial Committee, the Fifth Edition presents new information, new technologies, and advances in clinical decision making. The text provides state-of-the-art coverage of basic and clinical research, diagnostic methods, and medical and surgical treatments, bringing together the latest thinking of the foremost orthopaedic surgeons, neurosurgeons, neurologists, rheumatologists, radiologists, anatomists, and bioengineers.

Chapters cover anatomy, physiology, biomechanics, neurologic and functional evaluation, and radiographic evaluation and address the full range of pediatric problems, fractures, spinal cord injuries, tumors, infections, inflammatory conditions, degenerative disorders, and complications. Accompanying the text is a website with the fully searchable text plus a color image bank.

Editorial Review

Review

"In the editor's own words, "This book is but an extension of the previous editions." Each edition brings new information, technology, and advances in clinical decision making. An update is mandatory, every few years, in such a rapidly evolving field. Nevertheless, the use of electronic media technologies and the incorporation of material from the Cervical Spine Society instructional courses make this edition a unique departure from previous ones."

Doody's Reviews (March, 2013)

Fernando Techy, MD (University of Illinois at Chicago College of Medicine)

Users Review

From reader reviews:

Tonia Jensen:

Here thing why this particular The Cervical Spine are different and dependable to be yours. First of all studying a book is good nevertheless it depends in the content than it which is the content is as scrumptious as food or not. The Cervical Spine giving you information deeper as different ways, you can find any guide out there but there is no reserve that similar with The Cervical Spine. It gives you thrill looking at journey, its open up your current eyes about the thing which happened in the world which is might be can be happened around you. It is possible to bring everywhere like in park, café, or even in your approach home by train. When you are having difficulties in bringing the imprinted book maybe the form of The Cervical Spine in e-book can be your choice.

Dolores Stiger:

Spent a free time and energy to be fun activity to accomplish! A lot of people spent their free time with their family, or their friends. Usually they carrying out activity like watching television, likely to beach, or picnic within the park. They actually doing same every week. Do you feel it? Do you want to something different to fill your personal free time/ holiday? Might be reading a book may be option to fill your no cost time/ holiday. The first thing that you ask may be what kinds of publication that you should read. If you want to test look for book, may be the book untitled The Cervical Spine can be excellent book to read. May be it might be best activity to you.

Carmen Annunziata:

Why? Because this The Cervical Spine is an unordinary book that the inside of the guide waiting for you to

snap that but latter it will shock you with the secret it inside. Reading this book beside it was fantastic author who also write the book in such wonderful way makes the content inside of easier to understand, entertaining approach but still convey the meaning fully. So , it is good for you for not hesitating having this ever again or you going to regret it. This phenomenal book will give you a lot of benefits than the other book get such as help improving your talent and your critical thinking way. So , still want to hold off having that book? If I ended up you I will go to the e-book store hurriedly.

Alan Sarno:

Is it you who having spare time in that case spend it whole day through watching television programs or just resting on the bed? Do you need something new? This The Cervical Spine can be the response, oh how comes? The new book you know. You are therefore out of date, spending your free time by reading in this completely new era is common not a geek activity. So what these textbooks have than the others?
