Image Processing, Analysis & and Machine Vision - A MATLAB Companion

By Tomas Svoboda, Jan Kybic, Vaclav Hlavac

Image Processing, Analysis & and Machine Vision - A MATLAB Companion By Tomas Svoboda, Jan Kybic, Vaclav Hlavac

This book is a companion book to the comprehensive text entitled Image Processing, Analysis, and Machine Vision by M. Sonka, V. Hlavac, and R. Boyle. This workbook provides additional material for readers of Sonka and is similarly structured. Written for students, teachers and practitioners to acquire practical understanding in a hands on fashion, this book provides the reader with short-answer questions, problems and selected algorithms from the main text using MATLAB in levels of varying difficulty. These resources can be used as extra practice for students to reinforce the material studied within the main text or can be useful as test materials for teachers.

Editorial Review

About the Author
Vaclav Hlavac is Professor of Cybernetics at the Czech Technical University, Prague. his research interests are knowledge based image analysis, 3D model-based vision and relations between statistical and structural pattern recognition.

Users Review

From reader reviews:

Shelia Lopez:

The book Image Processing, Analysis & and Machine Vision - A MATLAB Companion can give more knowledge and information about everything you want. Exactly why must we leave the good thing like a book Image Processing, Analysis & and Machine Vision - A MATLAB Companion? Several of you have a different opinion about publication. But one aim that book can give many details for us. It is absolutely appropriate. Right now, try to closer together with your book. Knowledge or facts that you take for that, you could give for each other; you may share all of these. Book Image Processing, Analysis & and Machine Vision - A MATLAB Companion has simple shape nevertheless, you know: it has great and large function for you. You can appearance the enormous world by open and read a publication. So it is very wonderful.

Muriel Carpenter:

Now a day people who Living in the era wherever everything reachable by match the internet and the resources within it can be true or not involve people to be aware of each info they get. How many people to be smart in acquiring any information nowadays? Of course the answer then is reading a book. Studying a book can help individuals out of this uncertainty Information especially this Image Processing, Analysis & and Machine Vision - A MATLAB Companion book because this book offers you rich data and knowledge. Of course the knowledge in this book hundred pct guarantees there is no doubt in it everbody knows.

Herbert Turley:

Nowadays reading books become more and more than want or need but also be a life style. This reading behavior give you lot of advantages. The benefits you got of course the knowledge your information inside the book that improve your knowledge and information. The data you get based on what kind of guide you read, if you want drive more knowledge just go with training books but if you want really feel happy read one with theme for entertaining for example comic or novel. Often the Image Processing, Analysis & and Machine Vision - A MATLAB Companion is kind of publication which is giving the reader unforeseen experience.

Raquel Black:

Image Processing, Analysis & and Machine Vision - A MATLAB Companion can be one of your beginning books that are good idea. All of us recommend that straight away because this guide has good vocabulary that could increase your knowledge in vocab, easy to understand, bit entertaining but delivering the information. The author giving his/her effort to get every word into satisfaction arrangement in writing Image Processing, Analysis & and Machine Vision - A MATLAB Companion but doesn't forget the main stage, giving the reader the hottest in addition to based confirm resource info that maybe you can be one of it. This great information could drawn you into fresh stage of crucial pondering.
