### Race Matters By Cornel West

With a new introduction, the groundbreaking classic *Race Matters* affirms its position as the bestselling, most influential, and most original articulation of the urgent issues in America's ongoing racial debate.

Cornel West is at the forefront of thinking about race. In *Race Matters* he addresses a range of issues, from the crisis in black leadership and the myths surrounding black sexuality to affirmative action, the new black conservatism, and the strained relations between Jews and African Americans. He never hesitates to confront the prejudices of all his readers or wavers in his insistence that they share a common destiny. Bold in its thought and written with a redemptive passion grounded in the tradition of the African-American church, *Race Matters* is a book that is at once challenging and deeply healing.

### Editorial Review

From Publishers Weekly

West's collection of eight cogent and profoundly moral essays on American race relations was a one-week PW bestseller.

Copyright 1994 Reed Business Information, Inc.

From School Library Journal

YA-Thought-provoking essays that address a number of controversial issues of concern to African Americans. West analyzes such subjects as nihilism in black America, the crisis of black leadership, affirmative action, black-Jewish relations, sexuality, and the legacy of Malcolm X. His writing style is scholarly and sparse—he does not waste words, and his prose is easy to read. Yet his viewpoints are radical and passionately felt. He is not afraid to speak frankly and, while he presents many criticisms, he also offers many solutions. Not everyone will agree with his point of view, but if one of his objectives is to make readers at least think about the problems he has dissected, then he has succeeded admirably.

From Library Journal

Most Americans agree that race matters. From the deep South to Los Angeles to the streets of Manhattan, where West futilely waited more than an hour for a cab to take him to the photo shoot for the book upon which this production is based, racism remains a stain on American society. In this unabridged recording of his book, West explores the psychic wounds of black nihilism, the misconceptions of black and white liberals and conservatives, the important role of sex in racism, and the redistribution of resources and of spirit that are essential for racial justice. He looks at contemporary black/Jewish tensions and offers insights into the views of Malcolm X. While a professional actor might have employed a more consistent vocal tone (the breaks between recording sessions are obvious), this is a minor point. For most collections.
