**Introductory Chemistry: Concepts and Critical Thinking (7th Edition)** By Charles H. Corwin

With an expanded focus on critical thinking and problem solving, the new edition of **Introductory Chemistry: Concepts and Critical Thinking** prepares readers for success in introductory chemistry. Unlike other introductory chemistry texts, all materials –the textbook, student solutions manual, laboratory manual, instructor’s manual and test item file – are written by the author and tightly integrated to work together most effectively. Math and problem solving are covered early in the text; Corwin builds reader confidence and ability through innovative pedagogy and technology formulated to meet the needs of today’s learners.

### Editorial Review

#### About the Author

**Charles H. Corwin** has spent over 30 years teaching chemistry to over 12,000 students. He has taught general chemistry, organic chemistry, and quantitative analysis, but has focused primarily on introductory chemistry for the personal rewards it offers.

Corwin was awarded his degrees from San Jose State University, where he was a member of Tau Delta Phi honor society. Early in his career, he was awarded a National Science Foundation grant to study instructional innovations at Grand Valley State University. Currently, he is a professor of chemistry at American River College, where he was recognized as Teacher of the Year in 1994. He is also the recipient of an Alumni Teaching award from Purdue University.

### Users Review

#### From reader reviews:

##### **Carla Ramirez:**

What do you think of book? It is just for students because they're still students or this for all people in the world, the particular best subject for that? Just simply you can be answered for that question above. Every person has several personality and hobby for each other. Don't to be compelled someone or something that they don't wish do that. You must know how great and also important the book Introductory Chemistry: Concepts and Critical Thinking (7th Edition). All type of book are you able to see on many options. You can look for the internet solutions or other social media.

##### **Marlin Peterson:**

Spent a free time and energy to be fun activity to try and do! A lot of people spent their spare time with their family, or their very own friends. Usually they performing activity like watching television, likely to beach, or picnic inside park. They actually doing same every week. Do you feel it? Would you like to something different to fill your current free time/ holiday? Can be reading a book may be option to fill your totally free time/ holiday. The first thing that you'll ask may be what kinds of publication that you should read. If you want to consider look for book, may be the e-book untitled Introductory Chemistry: Concepts and Critical Thinking (7th Edition) can be great book to read. May be it may be best activity to you.

##### **David Shields:**

People live in this new time of lifestyle always make an effort to and must have the time or they will get lot of stress from both daily life and work. So , whenever we ask do people have spare time, we will say absolutely of course. People is human not a robot. Then we ask again, what kind of activity do you have when the spare time coming to anyone of course your answer will certainly unlimited right. Then do you try

this one, reading publications. It can be your alternative within spending your spare time, typically the book you have read is Introductory Chemistry: Concepts and Critical Thinking (7th Edition).

**Carolyn Alcantara:**

What is your hobby? Have you heard that will question when you got pupils? We believe that that issue was given by teacher to the students. Many kinds of hobby, All people has different hobby. And you know that little person similar to reading or as examining become their hobby. You need to know that reading is very important along with book as to be the thing. Book is important thing to incorporate you knowledge, except your teacher or lecturer. You get good news or update with regards to something by book. A substantial number of sorts of books that can you decide to try be your object. One of them is this Introductory Chemistry: Concepts and Critical Thinking (7th Edition).
