**Egyptology at the Dawn of the Twenty-First Century Volume 2** By Zahi Hawass, Lyla Pinch Brock

This comprehensive three-volume set marks the publication of the proceedings of the Eighth International Congress of Egyptologists, held in Cairo in 2000. This massive and impressive 1693-page work encompasses the research of over 350 of the world's leading Egyptologists -- writing in English, French, or German -- and contains over 600 illustrations. A dedicated team of editors, proofreaders, and designers worked hard for three years to bring all the disparate elements of this publication -- including photographs, tables, graphs, hieroglyphs, hieratic script, and Greek, Arabic, Coptic, and Hebrew fonts -- together to create a work that is a benchmark in Egyptological publishing.

Organized thematically to reflect the breadth and depth of the material presented at the Congress, these papers provide a survey of current Egyptological research at the dawn of the twenty-first century. The proceedings include the eight 'Millennium Debates' led by esteemed Egyptologists, addressing key issues in the field, as well as nearly every paper presented at the Congress.

The 248 papers cover the whole spectrum of Egyptological research, and contain many photographs, maps, and plans, that are published here for the first time. Grouped under the themes of archaeology, history, religion, language, conservation, and museology, these contributions together form the most comprehensive picture of Egyptology today.

Contributors include: John Baines, Zahi Hawass, Antonio Loprieno, William J. Murnane, Aly Radwan, Donald Redford, Edna Russmann, Helmut Satzinger, Regine Schulz, W. Kelly Simpson, Hourig Sourouzian, Herman te Velde, Kent Weeks.
