*For two-semester courses in General Chemistry  
This package includes MasteringChemistry®.*

#### A relevant, problem-solving approach to chemistry

The **Third Edition** of *Principles of Chemistry: A Molecular Approach* presents core concepts without sacrificing rigor, enabling students to make connections between chemistry and their lives or intended careers. Drawing upon his classroom experience as an award-winning educator, Professor Tro extends chemistry to the student's world by capturing student attention with examples of everyday processes and a captivating writing style. Throughout this student-friendly text, chemistry is presented visually through multi-level images that help students see the connections between the world around them (macroscopic), the atoms and molecules that compose the world (molecular), and the formulas they write down on paper (symbolic).

The **Third Edition** improves upon the hallmark features of the text and adds new

assets—Self Assessment Quizzes, Interactive Worked Examples, and Key Concept Videos—creating the best learning resource available for general chemistry students.

### **Personalize Learning with MasteringChemistry**

MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics™. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions.

Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever—before, during, and after class.

## **Editorial Review**

### **About the Author**

Nivaldo Tro is a Professor of Chemistry at Westmont College in Santa Barbara, California, where he has been a faculty member since 1990. He received his Ph.D. in chemistry from Stanford University for work on developing and using optical techniques to study the adsorption and desorption of molecules to and from surfaces in ultrahigh vacuum. He then went on to the University of California at Berkeley, where he did postdoctoral research on ultrafast reaction dynamics in solution. Since coming to Westmont, Professor Tro has been awarded grants from the American Chemical Society Petroleum Research Fund, from Research Corporation, and from the National Science Foundation to study the dynamics of various processes occurring in thin adlayer films adsorbed on dielectric surfaces. He has been honored as Westmont's outstanding teacher of the year three times and has also received the college's outstanding researcher of the year award. Professor Tro lives in Santa Barbara with his wife, Ann, and their four children, Michael, Ali, Kyle, and Kaden. In his leisure time, Professor Tro enjoys surfing, mountain biking, being outdoors with his family, and reading good books to his children.

definitely imagine the story how the people do it anything. Third, you may share your knowledge to other people. When you read this Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package (3rd Edition) (New Chemistry Titles from Niva Tro), you could tell your family, friends as well as soon about your publication. Your knowledge can inspire average, make them reading a e-book.

### **Shirley Williams:**

It is possible to spend your free time to learn this book this book. This Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package (3rd Edition) (New Chemistry Titles from Niva Tro) is simple bringing you can read it in the recreation area, in the beach, train along with soon. If you did not include much space to bring the actual printed book, you can buy typically the e-book. It is make you easier to read it. You can save the book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.

### **Gloria Lafreniere:**

This Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package (3rd Edition) (New Chemistry Titles from Niva Tro) is fresh way for you who has intense curiosity to look for some information because it relieves your hunger of knowledge. Getting deeper you into it getting knowledge more you know otherwise you who still having little bit of digest in reading this Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package (3rd Edition) (New Chemistry Titles from Niva Tro) can be the light food in your case because the information inside this particular book is easy to get by means of anyone. These books develop itself in the form that is reachable by anyone, sure I mean in the e-book form. People who think that in reserve form make them feel drowsy even dizzy this guide is the answer.
