### Editorial Review

#### From Library Journal

This is an introduction to ethics written from a Christian perspective and directed to a Christian audience. While recognizing the importance of the Bible as a determinant of ethical principles, Hollinger (Messiah Coll.; Individualism and Ethics) also recognizes that we live in a human, fallen, complex world. Arguing that any ethics must be grounded in a particular community and develop out of that community's worldview, Hollinger ably describes the foundations of Christian ethics and the role of ethics in a postmodern world, which he sees as socially fragmented and thus unable to engage in significant moral discourse. In a volume based more on principles than particulars, he argues for a balance between love and justice. An excellent introduction to ethics, the book offers a good balance between explaining what ethics is and providing an approach to dealing with ethical issues in a pluralistic society. Intended as a textbook for Christian seminaries and colleges, it will nevertheless appeal to anyone interested in the role of ethics in contemporary society. Highly recommended, especially for church and seminary libraries.
