Fischer's Mastery of Surgery (2 Volume set) From Brand: Lippincott Williams Wilkins

Emphasizing both the science and craft of surgery, *Fischer's Mastery of Surgery, Sixth Edition*, embraces a scope consistent with the broad training of a general surgeon, providing extensive coverage of vascular surgery as well as of common thoracic, breast, esophageal, endocrine, colorectal, gastric, pancreatic, liver, and biliary procedures. Organized for ease of use, each procedural chapter reviews the essentials of diagnosis, anatomy, and pre-operative planning, but focuses most heavily on step-by-step depictions and descriptions of procedures. Each chapter concludes, as is traditional for this classic text, with an editorial commentary that puts the chapter material in a broad context and provides helpful critiques of the most recent literature.

The path to surgical mastery begins here!

- **Step-by-step guidance** takes readers through each procedure, with tips and cautions from leading surgeons.
- **More than 3,400 illustrations** offer a surgeon's-eye-view of the most advanced approaches.
- **Over 450 renowned contributors** share their surgical expertise with readers.
- **Focus on evidence-based surgery** reveals the science behind each approach.
- **A companion website** includes the fully searchable text and exclusive web-only chapters not found in the text.

NEW in the Sixth Edition...

- **Over a dozen new chapters** address endovascular treatment of varicose veins, fasciotomy, minimally invasive parathyroidectomy, reconstruction of the chest wall, thoracic aortic transaction, vascular injury to extremities.
- **Fully updated material** details the latest developments in vascular procedures, including both open and endovascular procedures.
- **New full-color design** throughout the text, including many new color images, help readers visualize and remember key anatomic features and surgical techniques.

Editorial Review

Review

"This sixth edition continues to very nicely follow and even exceed the path established by the earlier editions. It occupies a unique niche in surgical education materials. Rapid expansion of the field amply justifies the new edition."
