**Clinical Procedures in Primary Eye Care: Expert Consult: Online and Print, 4e (Expert Consult Title: Online + Print)** By David B. Elliott PhD MCOptom FAAO

*Clinical Procedures in Primary Eye Care* helps you master all of the knowledge you need to support today's growing optometric patient population. Ideal for students and practitioners alike, this well-organized, accessibly written optometry reference takes a simple, step-by-step approach to describing the commonly used primary eye care procedures you'll encounter.

- **Effectively diagnose and manage your patients** with succinct descriptions of today's most frequently encountered optometric techniques, supported by research evidence.
- **Visualize procedures and eye disorders as clearly as possible** through full-color photographs, eye diagrams, and color plates.
- **Offer your patients state-of-the-art eye care** with the latest information on the use of technology in clinical practice, as well as guidance on evidence-based practice and presbyopic contact lens fitting.
- **Understand how to treat today's aging optometric patient population** through a brand-new section on Optical Coherence Tomography (OCT), in addition to numerous suggestions on how to adapt some tests for older patients.
- **Access the fully searchable contents, multi-screen video clips, and interactive testing sections with photographs online** at [www.expertconsult.com](http://www.expertconsult.com)!

## **Editorial Review**

### Review

"Clinical procedures In Primary Eye Care is perhaps 'the' interactive textbook for students of optometry to supplement their didactic and clinical education." **Clinical and Experimental Optometry, 99.2, March 2016**

"The chapters are well organized, the tables and figures are very useful, and the references are complete. Some chapters, especially Chapter 4, uses excellent colored images of various ocular conditions. This book certainly attains its goals as set out in the Preface and would be recommended to optometry students, residents, or practitioners wishing to review their clinical practice." **Optometry and Vision Science, Vol. 91, No. 1, January 2014**

## **Users Review**

### From reader reviews:

#### **Sarah Ford:**
