## Editorial Review

### Review

"Rich and rewarding...Informed throughout by a striking unity of method and outlook...A remarkably delicate ear for recurring themes and ideas, far beyond mere verbal echoes, distinguishes the entire book, as does a passionate concern with ethics....Here is the finest exegete of classical literature of his generation....This splendid collection will serve...as an inspiration far beyond the circle of those who knew and loved its author."--*Times Literary Supplement*

### From the Back Cover

The volume has a powerful coherence which comes from Macleod's fusion of scrupulous scholarship with a passionately intense search for wisdom in the creations of the past. He sees great writers, of prose and verse, as using myth, history, theology, and rhetoric as access to some understanding of the human condition. Careful readers will find that these essays have within them deeply felt insights into society, love, suffering, and death.

### About the Author
