Editorial Review

From the Back Cover

EVERYTHING YOU NEED TO BUILD A WORKING ROBOT BASE --- FROM THE AUTHOR OF ROBOT BUILDER'S BONANZA

Here is the first title in the innovative new ROBOT DNA SERIES from McGraw-Hill, the premier publisher of references for the robotics hobbyist.

Author Gordon McComb focuses on the basic concepts and specific applications you need to build efficient robot bases -- and have a great time in the process. In the clear, easy-to-follow style that has made him a favorite among robotics fans, Gordon tells you how to get things up and running using only inexpensive, easily-obtained parts and simple testing equipment.

Detailed enough to get the job done, but written with the amateur hobbyist in mind, *Constructing Robot Bases* is your first point of reference when designing and building this essential subsystem.

ALL THE DATA YOU NEED TO BUILD YOUR OWN ROBOT BASE:

- * Mechanical Construction
- * Electrical Construction
- * Operating Power
- * Robot Designs
- * Constructing a Two-Wheeled Rover Robot
- * Selecting the right materials
- * Glossary of Terms
- * Tables, Formulas, and Constants
- * Resources (books, web pages, list servers, clubs, suppliers, etc.)

About the Author

Gordon McComb needs no introduction to robotics hobbyists. Mr. McComb has written more than fifty books and one thousand magazine articles and newspaper columns, much of it on science and technology. His writings have appeared in Popular Science, Omni, PC Magazine, and dozens of other recognized publications. For 15 years, Mr. McComb wrote a weekly nationally syndicated newspaper column on computers and was the founder of the Robotics Workshop in Popular Electronics magazine. He is the author of the blockbuster *Robot Builder Bonanza*, the longest-selling book on amateur robotics.

Users Review

From reader reviews:

Mandy Conway:

This book untitled Constructing Robot Bases (Tab Electronics) to be one of several books this best seller in this year, this is because when you read this e-book you can get a lot of benefit in it. You will easily to buy this book in the book retail outlet or you can order it by means of online. The publisher in this book sells the e-book too. It makes you more readily to read this book, because you can read this book in your Touch screen phone. So there is no reason for you to past this guide from your list.

Katrina Frey:

Reading a e-book can be one of a lot of pastime that everyone in the world likes. Do you like reading book consequently. There are a lot of reasons why people fantastic. First reading a guide will give you a lot of new information. When you read a publication you will get new information because book is one of a number of ways to share the information or perhaps their idea. Second, reading a book will make you actually more imaginative. When you studying a book especially fictional book the author will bring you to definitely imagine the story how the characters do it anything. Third, you may share your knowledge to other people. When you read this Constructing Robot Bases (Tab Electronics), you could tell your family, friends and soon about yours e-book. Your knowledge can inspire the others, make them reading a publication.

Eunice Randle:

Playing with family inside a park, coming to see the ocean world or hanging out with friends is thing that usually you will have done when you have spare time, then why you don't try matter that really opposite from that. One particular activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Constructing Robot Bases (Tab Electronics), you can enjoy both. It is very good combination right, you still wish to miss it? What kind of hangout type is it? Oh can occur its mind hangout guys. What? Still don't have it, oh come on its named reading friends.

Annette Dixon:

Are you kind of hectic person, only have 10 or perhaps 15 minute in your moment to upgrading your mind talent or thinking skill perhaps analytical thinking? Then you are experiencing problem with the book than can satisfy your limited time to read it because this all time you only find book that need more time to be learn. Constructing Robot Bases (Tab Electronics) can be your answer because it can be read by you actually who have those short free time problems.
