Learn ASP.NET 4.5, C# and Visual Studio 2012 Essential Skills with The Smart Met: Courseware tutorial for self-instruction to beginner and intermediate level By Simon Smart

This book is very, very different to any other computer book you have ever read. The Smart Method provides an entirely new and better way to learn ASP.NET, C# and Visual Studio. Here are just four of the many ways in which this book is unique:

- This book will give you the vital first step towards a career in web development without confusing with unnecessary complexity. Users who wish to learn more complex techniques can progress to the Expert Skills book.
- Instruction is logically structured into sessions and lessons. While this makes the book ideal for self-instruction, you can also use it to run your own, highly effective, adult training courses.
- Every lesson is presented on two facing sheets of A4 paper (the pages are much bigger than in any other ASP.NET book).
- Along with programming skills, this book teaches best practices that are often ignored by other books.

You'll immediately appreciate the value and relevance of each skill as it is taught. Both IT professionals and absolute beginners will love this book because it avoids needless technical jargon and concisely explains everything you need in a simple and no-nonsense way.

From the Back Cover

Amongst other things you'll learn how to:

- Install and configure the **completely free** Visual Studio Express
- Understand the basic principles of HTML, CSS and JavaScript
- Create and design ASP.NET web pages
- Understand the inner workings of ASP.NET

- Work with ASP.NET's most useful controls
- Understand, create and use C# variables
- Make use of the extensive .NET library
- Understand, create and use C# classes
- Perform complex logical operations using C# code
- Use ASP.NET's authentication and login features
- Create data-centric web applications using the new LINQ technology
- Test and debug ASP.NET web sites

Companies who have taken Smart Method courses include:

AOL Time Warner, The United States Army, Daimler Chrysler, Motorola, HSBC, Barclays, American Express, Allied Irish Banks, Imperial Tobacco, Volvo, The BBC, British Petroleum, The Foreign and Commonwealth Office, Unilever, The Institute of Chartered Accountants, The Ministry of Defence, Keele University, Deutsche Bank, HBOS, Transport For London, The Performing Rights Society, Scottish Power, The Office of the Parliamentary Ombudsman, BAE Systems, RBS, Marks & Spencer, Virgin, O2, BMW... and many, many others.

Editorial Review

About the Author

Simon Smart has worked as a professional programmer for over 10 years and has worked with ASP.NET since its earliest versions. In this book, Simon passes on his years of experience using The Smart Method's unique teaching method (see back cover of book for more details).

Users Review

From reader reviews:

Troy Jones:

As people who live in the modest era should be upgrade about what going on or facts even knowledge to make them keep up with the era that is certainly always change and move forward. Some of you maybe will update themselves by reading through books. It is a good choice to suit your needs but the problems coming to an individual is you don't know what one you should start with. This Learn ASP.NET 4.5, C# and Visual Studio 2012 Essential Skills with The Smart Met: Courseware tutorial for self-instruction to beginner and intermediate level is our recommendation so you keep up with the world. Why, since this book serves what you want and need in this era.

Gabrielle Oneal:

Information is provisions for people to get better life, information nowadays can get by anyone from everywhere. The information can be a expertise or any news even a concern. What people must be consider any time those information which is within the former life are hard to be find than now could be taking seriously which one is appropriate to believe or which one the resource are convinced. If you get the unstable resource then you obtain it as your main information you will have huge disadvantage for you. All those possibilities will not happen throughout you if you take Learn ASP.NET 4.5, C# and Visual Studio 2012 Essential Skills with The Smart Met: Courseware tutorial for self-instruction to beginner and intermediate level as the daily resource information.

Joe Timmons:

Reading a book tends to be new life style in this particular era globalization. With reading through you can get a lot of information which will give you benefit in your life. Having book everyone in this world may share their idea. Books can also inspire a lot of people. Lots of author can inspire their particular reader with their story or even their experience. Not only the storyline that share in the guides. But also they write about advantage about something that you need example of this. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors on this planet always try to improve their skill in writing, they also doing some exploration before they write to their book. One of them is this Learn ASP.NET 4.5, C# and Visual Studio 2012 Essential Skills with The Smart Met: Courseware tutorial for self-

instruction to beginner and intermediate level.

Richard Taylor:

Does one one of the book lovers? If yes, do you ever feeling doubt if you are in the book store? Try and pick one book that you just dont know the inside because don't judge book by its deal with may doesn't work here is difficult job because you are afraid that the inside maybe not since fantastic as in the outside seem likes. Maybe you answer is usually Learn ASP.NET 4.5, C# and Visual Studio 2012 Essential Skills with The Smart Met: Courseware tutorial for self-instruction to beginner and intermediate level why because the amazing cover that make you consider concerning the content will not disappoint anyone. The inside or content is definitely fantastic as the outside or perhaps cover. Your reading sixth sense will directly direct you to pick up this book.
