Thinking and Learning Through Drawing: In Primary Classrooms By Gill Hope

With an extensive background in teaching and researching children's uses of drawing, Gill Hope describes the ways in which multiple forms of drawing are used by elementary school children. She explains why it should be actively promoted as a means of supporting thinking and learning across a wide range of subject areas, and provides practical support for teachers.

Editorial Review

Review

'The text is clear and accessible and gives a fascinating overview of how drawing can help children to learn and understand the thinking of others...It is highly recommended for all students and practitioners interested in understanding more about how children express their ideas and theories about the world' - Early Years Update

About the Author

Dr. Gill Hope is a Senior Lecturer in the Primary Education Department of Canterbury Christ Church University, where she is Course Leader for Design and Technology

Users Review

From reader reviews:
