Operative Design: A Catalog of Spatial Verbs By Anthony di Mari, Nora Yoo

The core idea for this project is to use operative verbs as tools for designing space. These operative verbs abstract the idea of spatial formation to its most basic terms, allowing for an objective approach to create the foundation for subjective spatial design.

Editorial Review

About the Author

Anthony di Mari: Anthony Di Mari received his Bachelor of Arts in Architectural Studies from Holy Cross before completing a Master's Degree in Architecture at the Graduate School of Design at Harvard University. While attending Harvard, Anthony was awarded two travel grants, one to Pena Blanca, Chile to study fog harvesting, and the other to Japan, to research bamboo harvesting. Anthony has participated and been recognized in several design competitions. Most notably he received first place in his entry 'Urban Field' which converted wind power into electricity. His design for a plug-in community garden placed second in the Common Boston Common Build competition. Anthony's competition work has been featured online through inhabitat, Scientific American, CNN, and shiftBoston. His fabrication projects have been featured in exhibitions focused on the design process including Matter: design processes at the Bakery Design Collective in San Diego, California, and most recently GreeenHomeNYC's The new New York event. His professional experience in the field of Architecture includes collaborations with Peter Eisenman, Rick Joy Architects, RCR Arquitectes, Studio Luz, and Merge Architects.

Users Review

From reader reviews:

David Lacey:

Book is written, printed, or highlighted for everything. You can understand everything you want by a e-book. Book has a different type. As it is known to us that book is important thing to bring us around the world. Alongside that you can your reading skill was fluently. A publication Operative Design: A Catalog of Spatial Verbs will make you to be smarter. You can feel considerably more confidence if you can know about everything. But some of you think that will open or reading the book make you bored. It is not make you fun. Why they may be thought like that? Have you seeking best book or suitable book with you?

Bobby Phillips:

In this 21st century, people become competitive in most way. By being competitive today, people have do something to make all of them survives, being in the middle of the actual crowded place and notice by surrounding. One thing that occasionally many people have underestimated it for a while is reading. Yep, by reading a e-book your ability to survive increase then having chance to stand up than other is high. In your case who want to start reading any book, we give you that Operative Design: A Catalog of Spatial Verbs book as beginning and daily reading e-book. Why, because this book is usually more than just a book.

Billy Stinson:

Information is provisions for people to get better life, information these days can get by anyone in everywhere. The information can be a knowledge or any news even an issue. What people must be consider if those information which is within the former life are hard to be find than now is taking seriously which

one would work to believe or which one typically the resource are convinced. If you get the unstable resource then you buy it as your main information there will be huge disadvantage for you. All those possibilities will not happen in you if you take Operative Design: A Catalog of Spatial Verbs as your daily resource information.

Betty Serrano:

The particular book Operative Design: A Catalog of Spatial Verbs will bring someone to the new experience of reading the book. The author style to describe the idea is very unique. If you try to find new book to read, this book very ideal to you. The book Operative Design: A Catalog of Spatial Verbs is much recommended to you to learn. You can also get the e-book in the official web site, so you can easier to read the book.
