### Editorial Review

#### From Booklist

Written by the author of *Curious George*, this hefty guide to stars, constellations, and planets in the night sky was first published in 1952 and revised several times, though the current book is evidently the first to be called the second edition. A star on the jacket proclaims “updated star and solar system information.” Inside, additions include an introductory note on Pluto, which explains the difference between a planet and a dwarf planet, as well as a paragraph on the Kuiper Belt. Information on the solar system and the asteroid belt has been revised in the light of Pluto’s reclassification. In addition, the planetary tables have been updated through 2016. The bibliography was not updated, however, and it includes no books from the last 10 years. Still, the new edition is recommended to replace old ones in astronomy collections.

#### Review

"The Stars is the best book available for its purpose. It is also a brilliant example of the combined use of art and writing in bringing science to the layman." Saturday Review

#### About the Author

Hans Augusto Rey was born in Hamburg, Germany in 1898. As a child, he spent much of his free time in that city's famous Hagenbeck Zoo drawing animals. After serving in the army during World War I, he studied philology and natural science at the University of Hamburg. He then married Margret Rey and they moved to Montmartre for four years. The manuscript for the first *Curious George* books was one of the few items the Reys carried with them on their bicycles when they escaped from Paris in 1940. Eventually, they made their way to the United States, and *Curious George* was published in 1941. *Curious George* has been published in many languages, including French, German, Japanese, Afrikaans, and Norwegian. Additional *Curious George* books followed, as well as such other favorites as *CECILY G. AND THE NINE MONKEYS* and *FIND THE CONSTELLATIONS*.

### Users Review

#### From reader reviews:

##### **James Cooper:**

Information is provisions for individuals to get better life, information presently can get by anyone with everywhere. The information can be a know-how or any news even a problem. What people must be consider while those information which is within the former life are hard to be find than now is taking seriously which one is appropriate to believe or which one the resource are convinced. If you have the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All those possibilities will not happen within you if you take *The Stars* as your daily resource information.
