Simulation and Software Radio for Mobile Communications (Artech House Universal Personal Communications) By Hiroshi Harada

This cutting-edge, first-of-its-kind resource gives you a comprehensive understanding of the simulation and evaluation methods used for today's mobile communication systems. Written by two highly regarded experts in the field, the book focuses on the performance of both the physical and protocol layer transmission scheme. It defines and presents several invaluable simulation tools written in Matlab® code, along with clear examples that explain their use. You get in-depth discussions on digital modulation techniques, including Bpsk, Qpsk, Oqpsk, Msk, Gmsk, and Qam by using simulation programs. Moreover, the book also explains the history and configuration of both Ofdm and Cdma transmission scheme, discusses multiple access protocols, cellular telecommunication systems, and introduces cutting-edge software radio communication systems. This practical reference is packed with over 240 equations and 160 illustrations.

Editorial Review

Users Review

From reader reviews:

Robert Burdette:

The book Simulation and Software Radio for Mobile Communications (Artech House Universal Personal Communications) make one feel enjoy for your spare time. You can use to make your capable much more increase. Book can to become your best friend when you getting stress or having big problem using your subject. If you can make examining a book Simulation and Software Radio for Mobile Communications (Artech House Universal Personal Communications) to be your habit, you can get much more advantages, like add your capable, increase your knowledge about a number of or all subjects. You are able to know everything if you like open and read a publication Simulation and Software Radio for Mobile Communications (Artech House Universal Personal Communications). Kinds of book are several. It means that, science book or encyclopedia or other people. So , how do you think about this publication?

Phyllis Ramirez:

This book untitled Simulation and Software Radio for Mobile Communications (Artech House Universal Personal Communications) to be one of several books in which best seller in this year, this is because when you read this guide you can get a lot of benefit on it. You will easily to buy this book in the book retail outlet or you can order it by means of online. The publisher on this book sells the e-book too.
